

Job Description

Electrical Assembly Fitter

Purpose of Role

To assemble electrical sub assemblies/machines for a range of packaging machinery for supply to the final build function within required timescales.

Reporting to: Electrical Team Leader

Key Responsibilities/Activities:

- Build sub assemblies/panels as required by supplied drawings
- Check and verify accuracy of assemblies/panels on completion
- Daily and accurate completion of records including timesheets and inspection status documentation
- Report any manufacturing and assembly errors to team leader so corrective action can be agreed
- To adhere to all required quality and H&S standards
- On an ad hoc basis you may be asked to visit other BLG/customer sites to assist with final build/installations/commissioning
- Keep your work area clean and tidy at all times.
- To work with other departments to be involved in setting priorities regarding assembly build to ensure all builds are complete within required timeframes
- To undertake other duties as may be required

Competencies/Skills:

- Good Attention to detail
- Good oral communication skills
- Team player
- Flexible attitude
- Willingness to learn/develop
- Ability to read engineering drawings/parts lists

Background/Experience:

- Successful completion of apprenticeship (C&G 204 or C&G 236)
- Knowledge of working with a wide variety of materials
- Good working knowledge of assembly protocols
