

Job Description

Application Engineer

Purpose of Role:

To initiate technical concepts for individual machines and/or machines systems solutions, and to calculate and record the associated costs. To compile customer facing documentation including quotations, proposals, machine and site layout drawings, and to work within given timescales.

Reporting to:

Technical Applications Director.

Key Responsibilities:

- ◆ Produce cost effective machine / system solutions using standard practices wherever possible
- ◆ Compile accurate and consistent machine / systems costs using standard templates
- ◆ Specify and source third party equipment as necessary
- ◆ Analyse 'business risk' and implement appropriate actions to mitigate the risk
- ◆ Produce budget quotations and formal proposals within given timescales
- ◆ Maintain Applications files and reports
- ◆ Manage customer expectations whilst assuring the best interests of the company are upheld
- ◆ Manage handover of technical and commercial information to company Operations
- ◆ Support the activities of Project Managers as required
- ◆ Visit customer and other BL Ltd. Sites (worldwide) to support sales, project or design functions
- ◆ Adhere to all required quality and health & safety policies in operation relating to job role
- ◆ To perform any other duty within your competency as may be required

Competencies / Skills:

- ◆ Good understanding of BL Ltd. Machines and their process applications
- ◆ Creative and innovative machine / system provider
- ◆ Technically competent
- ◆ Good oral and written communication
- ◆ Good IT skills - CAD, word processing, spreadsheets & databases.
- ◆ Good commercial awareness
- ◆ Personal planning and organisation
- ◆ Customer focused

Background Experience:

- ◆ 2+ yrs. Proven ability to provide machine/ system solutions
- ◆ 3+ yrs. Mechanical design/ control engineering experience
- ◆ 3+ yrs. Machine manufacture and assembly experience
- ◆ Process line experience
- ◆ HND or equivalent qualification in relevant discipline
- ◆ Proven ability in risk management, labour and material costing
